

# DEAYTON TAX CONSULTING

Your expert partners in resolving ATO tax issues

## CASE STUDY REDUCING AUDIT PAIN

### SITUATION

An accountant approached us as a client was having major issues dealing with an ATO audit. The Accounting firm was also concerned that the ATO may audit a number of their other clients.

### ISSUES

Tax questions - related to corporate restructuring for legitimate asset protection purposes. Practice issues - reputational risk if multiple corporates were audited.

### STRATEGY

Advocated the case with the ATO utilising our knowledge of the tax issues and insights into ATO operations.

### OUTCOME

Settlement that was favourable to the client and the ATO did not pursue the accounting practice's other clients.
